Allowable Subject Matter

Pending claims 36-51,53,55,56 and 61-69 are allowed.

The following is an examiner's statement of reasons for allowance:

The closest prior arts are Sklar (US 5,308,483) in view of Lemonnier (US 5,288,638). Independent Claims 36 and 69 recite latching tabs suited for pressurized liquid filtration, the structure of which is different from the prior art, Sklar (483), because the latching tabs of Sklar are designed for quick attachment and disengagement, which need to withstand only internal vacuum, and not for withstanding the fluid pressure. Secondary ref Lemonnier uses threaded attachment, and therefore it is also not obvious to have the type of latching tabs of the instant claim. Other claims depend on claim 36, and therefore are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
